(925) 890-0267 | [scott.t.sakurai@gmail.com](mailto:scott.t.sakurai@gmail.com) | [GitHub](#) | [LinkedIn](#) | [Personal Website](#)

## Education

---

**California State University, Long Beach**

Aug 2018 - May 2022

Bachelor of Science, Computer Science

**Programming Coursework:** Database Fundamentals, Discrete Structure-Computing Application, Object-Oriented Programming & Data Structures, Data Structures and Algorithms, Artificial Intelligence

**Awards:** Dean's Honor List (Fall 2020, Spring 2021), President's List (Fall 2021)

## Experience

---

**22 West Media**

Aug 2021 - July 2022

*Webmaster*

- Developing new features for the website daily using HTML, CSS, PHP, and various APIs
- Consults daily with the marketing team to develop banners, ads, and new website content
- Build new pages for the 22 West Media website

## Personal Projects

---

**Reegle - HTML, CSS, JavaScript, React, SQL, Node.js, Express**

July 2022 - Present

- Individually designed both the client and server of a movie trivia application
- Developed functionality of randomly choosing a popular movie using REST and the ability to search millions of movies to match the movie through the use of different APIs
- Developed with React in frontend and Node in backend

**ScreenTime - HTML, CSS, JavaScript, React, Node.js**

Feb 2022 - July 2022

- Individually developed the application that has users order movies by their release date
- Gathers movie data using the TMDB API
- Developed logic and functionality using React

**Personal Blog - HTML, CSS, JavaScript, Node.js, MongoDB, Express, EJS**

Nov 2021 - Jan 2022

- Individually developed a blog site using MongoDB to store the multiple posts
- Uses Node to develop the backend functionality and EJS to develop the templates for the different pages

**MineSweeper Solver - Python**

Feb 2021 - Mar 2021

- Collaboratively designed a program that solves a randomly generated minesweeper board
- Implements a series of rules that allow the program to find the most optimal location that would eventually lead to a completed puzzle

## Skills

---

**Computer Technologies:** Java, Python, HTML, CSS, JavaScript, SQL, MongoDB, React, jQuery, Lodash, Node.js, Express.js
